

INTERNATIONAL OCEAN FREIGHT FORWARDING - IMPORT AND EXPORT

MegaFreight offers a full range of FCL and Groupage services for both import and export cargo. Based on our long term relationships with all major carriers we are able to offer the best available routings to suit individual requirements at competitive rates.

Our hands on "Service you can Touch" philosophy ensures that your consignments are managed by dedicated people who take ownership for the smooth flow and management of your goods whilst in transit.

Partnerships with dynamic leading Global freight and logistics companies such as IJS Global and Scan Logistics, allows MegaFreight to offer a door to door solutions to more than 100 countries to and from all the major global gateways.

OUR SERVICE OFFERING INCLUDES THE FOLLOWING:

Scheduled Services:

Planned estimated times of departure (ETD's), estimated times of arrival (ETA's) as well as named day sailings.

Groupage Services:

Regular services to and from all major ports globally.

Ship Chartering:

We will source vessels best suited to carrying your cargo type.

Bulk Cargoes, Break-bulk and Abnormal Loads:

Specialised cargoes such as grains, ores, bagged cargo and oversized machinery can be accommodated in various ways to ensure you get the best possible solution for your need.

RoRo (Roll on Roll off):

When it comes to RoRo, we are able to offer customised solutions for moving cars, trucks, earthmoving and mining equipment.

Multimodal Services:

We offer a full multimodal service with Air, Sea, Road and Rail combinations.

FCL (Full Container Load):

Whether you require a 20ft or 40ft container, open top, flat top or Reefer containers, we have a solution for you.

Order Assembly:

We have the ability to assemble cargo (import & export) from multiple suppliers to one consignee, thus reducing costs and increasing control.

Indent Monitoring:

We will proactively manage your purchase order status.

Track and Trace:

Through our partnerships with IJS Global and Scan Global Logistics, we can offer direct links to I-Gain and LWM (Logistic Workflow Management) and live web-based tracking and information systems.

Hazardous Cargo:

We have qualified staff to handle your consignments in terms of the IMDG regulations.

Cross Trade:

We regularly handle offshore cargo and understand the implications of managing the cargo between two foreign points (outside South Africa) to ensure a smooth flow from departure to the port of arrival at the other end while keeping our customer informed throughout the process.

On-forwarding to other African Destinations:

Being a South African based business, we have direct access and control to air, ocean, road and rail networks servicing Africa.

Marine Insurance:

MegaFreight is a registered provider of marine insurance (FSP Nr: 17723) and is able to provide comprehensive marine cover at competitive rates (see separate factsheet).
